CLOUD EFFICIENCY OPTIMIZATION ASSESSMENT

▼ HOW ELASTIC IS YOUR CLOUD INFRASTRUCTURE?

So you've made the transition to cloud. But does your solution expand and contract on-demand according to your needs?

With this 2-3 week engagement, experienced AIM Consultants interview your business stakeholders, cloud architects, engineers, and administrators and help you uncover inefficiencies and areas for improvement.

▼ WHAT YOU GET

- ▼ Detailed assessment of your existing infrastructure
- ▼ Current state comparison to industry best practices for cloud infrastructure implementation and administration
- ▼ Recommendations for greater operational efficiencies, increased reliability, security, and cost optimization
- ▼ Assessment of team skillsets with recommendations for technical skills improvements
- ▼ Presentation to key stakeholder groups
